Reject quotation request

Ulf Kronsell - 2023-10-16 - [Quotation Requests](#)

It is possible to reject a quotation request as long as the request has the status **Unanswered** (a quote has not been sent to the customer). **NOTE!** It is also possible for customers to cancel quotation requests, for instance if they have entered incorrect information and wants to redo the request.

Rejecting a quotation request is done in the following way.

Click the quotation request you want to reject.

The screenshot shows the 'Quotation request' page in the SKOLON system. The left sidebar contains navigation links: Home, Statistics, Economy, Licence management (selected), and Tools. The main content area has a breadcrumb trail: Licence management / Quotation request. Below this is a 'Quotation request' section with a search bar and a 'Filter' button. A table lists quotation requests with columns: School, Tools, Received, and Status. One request is visible with a red box around the 'Unanswered' status. At the bottom, there are links for 'Terms of Service' and 'Support'.

School	Tools	Received	Status
[Redacted]	x 1	08/08/2022	Unanswered

Click **Reject quotation**.

The screenshot shows the 'Reject quotation' form. The left sidebar is the same as the previous screenshot. The main content area has a form with fields for 'Telephone:' and 'Message from customer:'. Below these is a table showing quotation details. To the right of the table is a summary section with a 'Reject quotation' button highlighted with a red box. The summary section also includes a 'Send quotation' button.
